#### The City and Vicinity

Mrs. W. A. G. Handford, who has been spending the summer at Elk City, returned home yesterday.

Mr. and Mrs. W. H. Walker left Corvallis this morning. They are enroute to Logan, Utah, to remain.

A. L. Stevenson has gone to Soap Creek to conduct a sale for one Logan. In the meantime Corvallis is enjoying a sort of half-holiday.

G. W. Denman and E. R. Bryson leave tomorrow on a hunting trip. They will go toward the coast and be gone the remainder of the week.

Rev. Ore, the new minister at the M. E. church south, comes from Heppner, and is already in the city. Mr. Ore is a rather splendid looking man.

Dr. F. B. Dayton, one of the city eye specialists who has been making this territory for years, is due tomorrow and Thursday. His ad is to be found elsewhere.

E. R Lake, of Corvallis, and W. H. Davis and F. J. Fletcher, are the incorporators of the "Linnhaven Orchard Co.," capitatized at \$300.000. Articles were filed at Albany yesterday.

Miss Sallie Snell, who has been visiting her sister, Margaret Snell, left yes terday for her home at Berkeley. where she is at the head of one of the departments at Snell Seminary.

ing. They were out baling twenty-two days, and threshing twenty-five days. They had a good run for the season. The Leeder Bros. are noted for the excellent crews they carry with them, enjoying a very favorable reputation in Linn county.

Andrews & Kerr's fine new delivery outfit made its first trip this morning. The vehicle was built for the special purpose to which it is put, contains countless drawers and shelves for the bakery goods, all enclosed property for sanitary purposes. The vehicle is carried along by a rather good looking animal driven by a good looking young man, Roscoe V. Tartar. This individual delivery is almost an innovation.

S. J. Smith, who came here from Walla Walla several months ago, leaves tomorrow for that place. He has interests there more extensive than here hence his return. Mr. Smith says he likes this country very much, but is inclined to agree with strangers at his home recently, who found in illy developed farms much that is discouraging. Mr. Smith is a booster, and when east some time ago, showed at St. Paris, Ohio, boxes of fruit he had taken with him from this country.

### BUTTERICK FOUNDING A RACE **COURSE FOR AEROS**

Auto and Aviation Park on Jersey Meadows.

WILL COST OVER \$2,000,000.

Alm is to Make the Establishment the Center of Aerial Racing and Experimentation In This Country-How the Automobile Track, Five Miles Long, Will Be Built.

Before another year has gone by New York city will have within fifteen minutes of its downtown section not alone the largest and finest automobile race track in the country, but also a fully equipped aviation park for the trying out and racing of aeroplanes and other air craft. The proposed automobile race track will be five miles long, and its estimated cost is between \$2,500,000 and \$3,000,000. The aim will be to make the park the center of all

A syndicate, of which P. S. Parish. president of a realty company, is the head, which includes Arthur Alexan-Worthington M. Jacobus, a New Jersey civil engineer, has obtained an option on 460 acres of land on the Hackensack meadows, lying between the Newark plank road and the Pennsylvania railroad tracks, on which it is proposed to build the park. A number of well known automobile manufacturers are also interested in the project, their interests being looked after by Messrs, Robertson and Alexander.

The land is at present only partly developed; but, according to the terms of the option, the selling company agrees to fill in and improve the prop-Mr. Jacobus has drawn the plans of the track, every bit of which will be within the view of the spectators in the grand stand. The latter will be a huge structure, capable of seating close to 100,000 persons. He has also completed plans for conveniences required by the experimenters and racers with airships. The track itself will be built from the suggeskind. They moved about like a tions of Robertson and will consist of lot of land-lubbers who haven't an oval shaped two mile course for speed racing, surrounded by a three yet found their sea-legs—but this mile course which, with the former, will be used for road racing. On the outer track, directly opposite the grand the fat too rapidly. Just what which it is expected a thorough test "Metzy" will work out of that of the cars in the races will be had. One of the proposed hills will be 120 bunch or into it is not even a feet high, with a 12 to 18 per cent

Coming into the straight, the course will be slightly downward, and it is expected that a speed of 100 miles an hour will be attained by the racing cars. Several plans for the safety of both the spectators and the drivers are also under consideration, the one meeting the most favor and the most likely to be adopted being the building of the track a foot or two below because of some accident to the steerwould quickly be brought to a stop without injury to the driver or the

spectators who might be near by. Plans for financing the project are well under way, a number of well Gilbert, who played such a star known automobile manufacturers havgame with the underlings last ing pledged large sums of money for the purpose,

#### NEW SHEEP DISEASE.

First Case of Gid In United States Found In Central New York.

The first authentic case in the United States of gid, a brain disease peculiar to sheep, has been found on a cording to Dr. V. A. Moore, director of the State College of Veterinary Medicine.

The disease, he said, is common in Great Britain and Germany, but had never been definitely found in this country.

The malady is a form of staggers and is often fatal, but Dr. Moore says ly check its spread.

Mouse Trimmed Hat the Latest. If there any longer exists any doubt cipation of women it should be dispelled by the newest millinery modelthe mouse trimmed hat. The French

masters of millinery have now gone to "far and furrin" parts for their newest creation in headgear. This hat is a combination of a sunshade and an umbrella and is guaranteed to spect and confidence of the entire withstand both sunshine and rain. It is worked out in one of the new dull blues, with two of the most cunning stuffed mice gayly scampering around the crown and brim.

> A Novel Coat of Arms. The province of Ontario has obtained the royal warrant for the coat of arms of its choice, and its distinguishing features are such as will appeal to sportsmen, the "supporters" of the shield being a moose and a wapiti, while the crest is a black bear. There was some discussion as to the propriety of choosing the bear rather than the beaver, but the height of opinion was in favor of the former, and Ontario boasts the only coat of arms in the world in which all the animals hold the rank of game.
